Soft Skills

- Communication Skills
- Time Management
- Teamwork and Collaboration
- Problem-Solving Skills
- Work Ethic
- Leadership

ISURU BANDARA

MOBILE AND WEB DEVELOPMENT (INTERN)

ABOUT ME

I am a mobile app developer specializing in Flutter and React Native, with experience in connecting back-end services using Firebase and Spring Boot. Additionally, I build websites as a front-end developer using React. My diverse skill set allows me to create seamless, high-performance applications across both mobile and web platforms.

WORK EXPERIENCE

Bank of Ceylon

2020-2021

Bank Assistant(Super Grade branch Kurunegala)

- Collaborate with colleagues to achieve team goals, share best practices, and ensure smooth operations.
- Maintain accurate records of transactions, account activities, and customer interactions under bank policies.

PROJECTS

CodSoft company Flutter Projects(Virtual internship)

- This is a one-month internship as a Flutter developer. During this internship, I have to build three mobile apps: a Personal Expense Tracker App, a To-Do List App, and a Recipe App. Here, I cover Flutter widgets, UI design, data presentation, state management, and more.
- Role: Developer
- Technical Skills: Flutter, state management, UI design

Recycling App

- This app has been developed to be highly user-friendly and compatible with removing unnecessary materials from houses. When consumers enter the details into this app, sellers can come and buy unnecessary materials from homeowners. (Individual Project)
- Role: Developer
- Technical Skills: Flutter, Firebase
- [GitHub Repo](#)

Ecommerce Shoes App

- This shoe app is a comprehensive e-commerce mobile application designed for purchasing shoes online. It features a user-friendly interface and real-time inventory management. The app has been developed providing a robust and scalable solution for online shoe shopping. (Individual Project)
- Role: Developer
- Technical Skills: React Native, MySQL, Spring Boot
- [GitHub Repo](#)

MathsTriks App

- With this Flutter application, students can discover solutions for mathematical fractions, straight lines, area, perimeter, and more. When users input data into the app, it promptly generates answers. (Individual Project)
- Role: Developer
- Technical Skills: Flutter
- [GitHub Repo](#)

Service Station Appointment System (Community Project)

- This is an appointment system(Website) that customers can use to select their preferred time and date to service their vehicle. With the admin dashboard, the service officer can view and control the system. (Group Ongoing Project)
- Role: Developer
- Technical Skills: React, Node.js, MongoDB,
